

Immediate Opening: Laboratory Supervisor

MB Research is seeking a Laboratory Supervisor for the In Vivo Laboratory.

Responsibilities include:

- Manage daily operations
- Assess workload and schedule studies
- Perform study phases, i.e., dosing, specimen collections, observations, necropsy.
- Review study and facility data collections.
- Ensure Standard Operating Procedures, protocol parameters and GLPs are followed.

Requirements:

BS in biological science or equivalent with five years experience in animal toxicology studies, and firm working knowledge of GLPs. CRO experience is a plus.
Excellent benefits.

Qualified candidates should respond to this posting via the email address below with CV/resume and salary requirements. Please no phone calls.
